

## HOW TO PRINT

# emoji LITERACY FLASHCARDS

Download Emoji Flashcards PDF.

For best results, take to a nearby print shop for printing.

Feeling adventurous? Print at home on 80lb or heavier white cardstock paper.

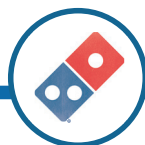

Ask the folks at the print shop nicely to change the printer settings, or change the settings on your printer to the following: Color, Portrait, 99%, double-sided (flip on long-edge), and on 80lb white paper.

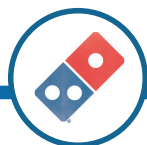

Carefully, cut along the “cut” lines marked on the cards using scissors or a paper cutter. If you’re not sure how to do this, you should probably ask an adult for help.

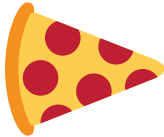

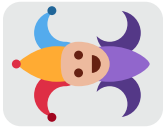

You’re ready to start learning with Emoji Literacy. Soon you’ll be able to order Domino’s with an emoji.
